

## HERITAGE PERMIT APPLICATION

This permit form is for **external alterations to individually designated properties**, and for properties located within a **heritage conservation district** and **Markham Heritage Estates subdivision**. Please see page two for typical types of external alterations requiring a Heritage Permit.

Please confirm any renovation plans with the Building Standards Department to ensure a Building Permit is not required. The Heritage Permit is only used when no other permits or planning approval are required. A Heritage Permit does not supersede the requirements of the Building Code Act, the Municipal Act or the Planning Act.

**There is NO FEE for a Heritage Permit.**

Please include any drawing, photograph or specification that will assist in the review of application.

Telephone 905-477-7000, ext. 2585

Fax 905-475-4739

email: [heritage@markham.ca](mailto:heritage@markham.ca)

## Heritage Permit Policies

All non-controversial or compliant Heritage Permits can be reviewed and approved by Heritage Section staff.

### Individually Designated Properties

An owner of a property designated under Part IV of the *Ontario Heritage Act* shall not alter or permit the alteration of the property where the alteration is likely to affect the reason for the designation/heritage attributes/statement of significance unless an application is made to Council and consent is obtained in writing to make such an alteration.

### Heritage Conservation Districts

In a heritage conservation district, the owner must obtain a permit to **alter any part of the property**, or **erect, demolish or remove any building or structure** on the property. All interior work is exempt unless it somehow affects the external appearance of the structure. Typical projects requiring a Heritage Permit include:

- New or different wall cladding or roof treatment
- Painting
- Masonry cleaning and repointing
- New or different windows or doors
- Changes to architectural decorations (i.e. verandas, trim, soffits fascia, etc)
- Front yard patios, lamp installations, awnings
- Mechanical equipment
- Structural repairs that effect the external appearance
- Fences
- Major vegetation removal (not traditional gardening activities)

#### A Heritage Permit is NOT required for:

- General repairs to weather stripping, eaves troughs, roofs, chimneys, fences, existing cladding
- Repair of broken window panes to original specifications
- Backyard patios, garden sheds, gazebos and other small outbuildings that are not readily visible from the street (which do not require a Building Permit)

### Markham Heritage Estates Subdivision

All properties in the subdivision are designated. The Agreement of Purchase and Sale fully describes the restrictions imposed on residents. Owners have agreed to ensure that the heritage dwelling and lot remain in the condition approved by the City, and that **any and all changes** must be approved in writing by the City prior to the changes being undertaken.

A Heritage Permit will be required for any external alteration to the heritage dwelling's appearance (including colours), the landscape treatment, or any accessory building. The City may in its discretion refuse to approve of any such proposals which in its opinion are unsuitable or undesirable. The City may take into consideration the material, detail and colour of all roofs, exterior walls, woodwork, windows, hardware and lighting fixtures, fencing, paving and landscape details proposed and the harmony thereof with the surroundings.
