2.1 Description of SWM Facilities (Use attachments if required)

--

2.2 Regulatory Requirements

- 1) Is the proposed work(s) exempted from the Environmental Bill of Rights (EBR) requirements?

YES	<input type="checkbox"/>	NO	<input type="checkbox"/>	N/A	<input type="checkbox"/>
-----	--------------------------	----	--------------------------	-----	--------------------------

If 'YES' provide a rationale for exemption (e.g. provide the applicable regulation details):

- ☐ This proposal is for an emergency situation.
- ☐ This proposal is for an amendment to or revocation of an existing ECA that is not environmentally significant.
- ☐ This proposal has been subject to or exempted from EAA requirements or considered in a decision of a tribunal.
- ☐ This proposal has been considered in a substantially equivalent process of public participation and the public consultation was carried out under the Planning Act requirements.

- 2) Is the proposed work(s) subject to the requirements of the Environmental Assessment Act (EAA)?

YES	<input type="checkbox"/>	NO	<input type="checkbox"/>	N/A	<input type="checkbox"/>
-----	--------------------------	----	--------------------------	-----	--------------------------

If 'YES', choose applicable Municipal Class EA Schedule:

Schedule A EXEMPTED	Schedule A+ EXEMPTED	Schedule B <input type="checkbox"/>	Schedule C <input type="checkbox"/>	Not Required <input type="checkbox"/>
-------------------------------	--------------------------------	--	--	--

If 'NO' provide a rationale for exemption:

Has the proposed undertaking fulfilled the requirements of the EAA through an exemption provided under:

Section of Ontario Regulation No.

or

Declaration/Exemption Order No.

Provide supporting documentation to explain why it applies to this facility

- 3) Does the project impact Indigenous treaty rights or asserted rights according to Schedule D Section 3.13 of the CLI ECA?

YES	<input type="checkbox"/>	NO	<input type="checkbox"/>	N/A	<input type="checkbox"/>
-----	--------------------------	----	--------------------------	-----	--------------------------

Attachment A - SW2 (SWM Facilities, Pre-Construction)

If 'YES', has consultation with Indigenous communities been completed?

YES ☐ NO ☐ N/A ☐

If 'NO', please provide the rationale why:

4) Has a Notice of Completion been submitted along with this application?

YES ☐ NO ☐ N/A ☐

5) Were any Part II Orders (i.e. 'Bump-up' requests) received for this project?

YES ☐ NO ☐ N/A ☐

If 'YES', please provide details:

6) Has an Environmental Study Report (ESR) been completed?

YES ☐ NO ☐ N/A ☐

If 'Yes', please include ESR Cover page with this submission.

7) Does the Drainage Act apply for this work?

YES ☐ NO ☐ N/A ☐

If YES, provide approval.

8) Have Performance Criteria under CLI ECA Appendix A Table A1 been set in an Assessment Study (e.g., watershed/subwatershed plan, Source Protection Plan (Assessment Report component), Master Stormwater Management Plan, or Master Environmental Servicing Plan?)

YES ☐ NO ☐ N/A ☐

If 'YES', please provide details (study name and control criteria¹):

¹ Include criteria for Water Balance, Water quality, Erosion Control, Water Quantity, Peak Flow/Flood Control

Attachment A - SW2 (SWM Facilities, Pre-Construction)

- 9) Are the SWM facilities part of a Retrofit Scenario?

YES ☐ NO ☐ N/A ☐

If 'YES', please provide details (study name and control criteria²):

- 10) Does the proposed work require a Permit from the Conservation Authority?

YES ☐ NO ☐ N/A ☐

If 'YES', please include a copy of the Permit.

If 'NO', the CLI-ECA cannot be processed, until the Permit is received.

- 11) Are there any other consultation/notification activities that have been undertaken to fulfil requirements by other legislation (e.g., MNRF, DFO, etc.) or through voluntary efforts?

YES ☐ NO ☐ N/A ☐

If YES, provide documents describing each of these consultation/notification activities.

- 12) Are the proposed works a prescribed drinking water threat under the Clean Water Act (i.e., The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage / Stormwater Management Facility subcategory)?

YES ☐ NO ☐ N/A ☐

- 13) Are the proposed works located in an IPZ-1, IPZ-2, IPZ-3 or WHPA-E with a vulnerability score of 8 or higher defined in the Toronto and Region assessment report under the Clean Water Act³?

YES ☐ NO ☐ N/A ☐

If NO, proposed works cannot be a significant threat.

If Yes, review drainage area size and predominant land use type for the applicable vulnerable area type and score to determine if the activity is a significant drinking water threat⁴. Are the works a significant threat?

YES ☐ NO ☐ N/A ☐

² Include criteria for Water Balance, Water quality, Erosion Control, Water Quantity, Peak Flow/Flood Control and indicate if new development criteria are met or whether Maximum Extent Possible criteria are applied.

³ Note – as of March 2025, the City of Markham does not have any IPZ-1, IPZ-2, IPZ-3 or WHPA-E area with a vulnerability score of 8 or higher.

⁴ Thresholds for significant threats are per MECP's Threats and Circumstances Table

(2017_2018_chemical_and_pathogen_tables_of_threats_12_v2.xlsx - <https://www.ontario.ca/page/tables-drinking-water-threats>)

Attachment A - SW2 (SWM Facilities, Pre-Construction)

Please provide MECP circumstances details (drainage area size, predominant land use, vulnerable area type and score) and MECP-defined Chemical Risk (Low, Moderate):

--

If Yes, please provide details of MECP Source Protection Standard Operating Policies⁵ to mitigate significant risks:

2.3 Technical Submissions

1) Engineering Reports

Name of the Report	Prepared by (Consulting firm)	Date (mm/dd/yyyy)	City Stamped (mm/dd/yyyy)

2) Engineering Drawings (SWM facilities-related drawings)

Name and number of Engineering Drawings	Prepared by (Consulting firm)	Date (mm/dd/yyyy)	City Stamped (mm/dd/yyyy)

⁵ Design Criteria for Sanitary Sewers, Storm Sewers and Forcemains for Alterations Authorized under an Environmental Compliance Approval Ministry of Environment, Conservation and Parks v.2.0, May 31, 2023, Appendix II

3.0 **Design Certification By Licensed Engineering Practitioner**

- 1) I certify that the design complies with the requirements set in the Corporation of the City of Markham's Environmental Compliance Approval (ECA) for the Markham Municipal Stormwater Management System, ECA Number 021-S701, as amended from time to time.
- 2) I certify that the design of the storm sewer/ditch/culvert satisfies the criteria set out in the Ministry's publication titled "Design Criteria for Sanitary Sewers, Storm Sewers and Force mains" dated May 2023, as amended from time to time.
- 3) I certify that the stormwater management facility has been designed in compliance with the Ministry's manual titled "Stormwater Management Planning and Design Manual, 2003", as amended from time to time and using the industry practices, procedures, and guidelines, including relevant municipal, TRCA, MNRF, and provincial documents listed in the Markham Stormwater Management Guidelines (2016), as amended from time to time.
- 4) I certify that the design is consistent with the current City's Design Criteria and Standard Drawings, as amended from time to time.
- 5) I certify that no gravity storm sewers, entering or exiting the SWM facility, exceed 3000 mm in diameter.
- 6) I also certify that any deviations due to site conditions or constraints, as identified in (1) to (5) above, have been discussed, reviewed, and accepted by the City. I further certify that approval for any works that do not meet the minimum requirements in the CLI ECA will be requested through the Ministry (i.e., Schedule C Notice¹).

¹ Any Schedule C submission will require a separate type of checklist, since they do not feed into SW1 forms and do not necessarily meet CLI ECA requirement. The City may have many similar documentation requirements as these preauthorized works but we will have to track and report on those separately.

Attachment A - SW2 (SWM Facilities, Pre-Construction)

- 7) I hereby further verify the following:
- a) Any alteration by adding, modifying, replacing, or extending stormwater management facilities will not result in:
 - Adverse effects; or
 - A deterioration on the approved quantity of downstream stormwater management facilities which results in not being able to achieve the overall stormwater performance criteria per attached Appendix A (extracted from original MECP ECA # 021-S701).
 - b) The alteration does not establish or alter any outlets that discharge to land not owned by the Applicant without the expressed written consent of the owner(s) of such private land(s) that the works will discharge to;
 - c) If privately owned stormwater works have been used in the stormwater treatment train to achieve Appendix A criteria of the ECA (021-S701), the Applicant agrees to include the required Warning Clauses in all Agreements of Purchase and Sale for such lots, where privately owned stormwater works have been provided, in the Subdivision Agreement with the City.
 - d) An assessment of the proposed works has been completed to determine if the works pose a Significant Drinking Water Threat. The proposed works (Stormwater Management Facility) are not significant threats to sources of drinking water or the design includes features that mitigate risk, such as included in the Ministry's Standard Operating Policy for Sewage Works, as amended; and Source Protection Plan policies pertaining to the works;
 - e) The proposed works are wholly located within the municipal boundary over which the City of Markham has jurisdiction except where there is an agreement existed between municipalities;
 - f) The City of Markham consents to the stormwater management facility alteration;
 - g) The Applicant (or their representative) has consulted with the local Conservation Authority and obtained necessary clearance, as required;
 - h) Any works that fall under the Drainage Act have obtained approval of a petition for the works under the *Drainage Act*;
 - i) Any works that establish new or increase discharges to a municipal drain have obtained written approval by the Owner and a signed engineer's drainage report, in accordance with the *Drainage Act*;

Attachment A - SW2 (SWM Facilities, Pre-Construction)

- j) The proposed new SWM facility provides the required quantity and quality controls, and
- k) The proposed SWM facility fulfil all the requirements of the sub-watershed or watershed studies.
- l) I am an authorized representative of the Applicant to complete this verification.

Name of Licensed Engineering Practitioner (First and Last name)	Company Name & Address
Signature	Date (mm/dd/yyyy)

Name of Licensed Engineering Practitioner (Sub-consultant, if applicable) (First and Last name)	Company Name & Address
Signature	Date (mm/dd/yyyy)

4.0 **Statement of Applicant / Developer**

I hereby declare that, to the best of my knowledge, the information contained herein, and the information submitted in support of this application is complete and accurate for the purpose of obtaining the Stormwater Management (SW2) approval for Record of Future Alteration Authorized for Stormwater Management Facilities under **021-S701**.

Name (First and Last name)	Title
Signature	Date (mm/dd/yyyy)

Attachment A - SW2 (SWM Facilities, Pre-Construction)

5.0 Documents to be Submitted by the Consulting Engineering

- 1) This Attachment A, duly signed and dated by the Consulting Engineer and the Applicant.
- 2) Proof of legal name (*Articles of Incorporation or other applicable documents if the Applicant is a Corporation; or birth certificate or passport if the Applicant is a person*).
- 3) If applicable, Permit / Approval from the local Conservation Authority and/or MNRF.
- 4) If applicable, a Proof of Consent letter from the landowner is to be provided, if the works are to be constructed on lands not owned by the Applicant.

6.0 Review by City of Markham Department

The above information (including all Technical Reports and Engineering Drawings) has been reviewed and/or peer-reviewed by the appropriate City's Department and meets the City's requirements. Acceptance of this project is in reliance on the professional skill and judgement of the Licensed Engineering Practitioner certified in Section 3.0.
