Design Certification By Licensed Engineering Practitioner				
1)	I certify that the design complies we City of Markham's Environmenta Municipal Stormwater Manageme from time to time.	I Compliance Approva	al (ECA) for the Markham	

- 2) I certify that the design of the third pipe collection system satisfies the criteria set out in the Ministry's publication titled "Design Criteria for Sanitary Sewers, Storm Sewers and Forcemains" dated May 2023, as amended from time to time.
- I certify that the design is consistent with the current City's Design Criteria and Standard Drawings, as amended from time to time.
- 4) I also certify that any deviations due to site conditions or constraints, as identified in (1) to (3) above, have been discussed, reviewed, and accepted by the City. I further certify that approval for any works that do not meet the minimum requirements in the CLI ECA will be requested through the Ministry (i.e., Schedule C Notice¹).
- 5) I certify that the addition of the third pipe collection system can be constructed but not operated until the Stormwater Management Facilities (if required) to service the new third pipe system are in operation.
- 6) I hereby further verify the following:
 - a) The third pipe collection system alteration is not located on a contaminated site, or where natural occurring conditions result in contaminated discharge, or where the site receives contaminated groundwater or stormwater from another site, unless the discharge being received has been remediated or treated prior to acceptance by the third pipe system;
 - The third pipe collection system is limited to collection, transmission, reuse and/or treatment of only foundation drainage, groundwater, and rooftop drainage;
 - A site assessment has been undertaken for water quantity, water quality and hydrogeological site conditions regarding the third pipe collection system alteration;
 - d) Any alteration of the third pipe collection systems will not result in adverse effects;
 - e) The alteration does not establish or alter any outlets that discharge to land not owned by the Applicant without the expressed written consent of the owner(s) of such private land(s) that the works will discharge to;

1 Any Schedule C submission will require a separate type of checklist, since they do not feed into SW1 forms and do not necessarily meet CLI ECA requirement. The City may have many similar documentation requirements as these preauthorized works but we will have to track and report on those separately.

- f) The proposed works are wholly located within the municipal boundary over which the City of Markham has jurisdiction except where there is an agreement existed between municipalities;
- g) The Applicant has consulted with the local Conservation Authority and obtained necessary clearance, if required;
- h) The City of Markham consents to the third pipe collection system alteration; and
- i) I am an authorized representative of the Applicant to complete this verification.
