

MARKHAM FLOOD CONTROL PROGRAM

IMPORTANT NOTICE

2020 STORMWATER FEE UPDATE

The Flood Control Program is a long-term citywide initiative to improve storm drainage capacity and limit flooding risks in urban areas.

Several projects have been completed and are currently underway to protect public and private property from the effects of extreme weather. These improvements are funded by a Stormwater Fee, which has remained unchanged since it was introduced in 2015 and 2016.

In 2020, the Stormwater Fee will be increasing.

See reverse for details.

STORMWATER FEE INCREASE

RESIDENTIAL

Current Stormwater Fee	2020 Stormwater Fee
\$47	\$50

Fee will increase by \$1 per year, each year thereafter.

NON-RESIDENTIAL PROPERTY

Current Stormwater Fee	2020 Stormwater Fee
\$26 per \$100,000 of Current Value Assessment (CVA)	\$28 per \$100,000 of Current Value Assessment (CVA)

Fee will increase by 2% per year, each year thereafter.
