**B1**

Notice of Study  
Commencement

**NOTICE OF STUDY COMMENCEMENT  
SCHEDULE C, MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY  
FOR IMPROVEMENTS TO VICTORIA SQUARE BOULEVARD  
(FROM WOODBINE AVENUE TO WOODBINE AVENUE)**

**Study Overview**

The City of Markham is initiating a Municipal Class Environmental Assessment to study potential improvements to Victoria Square Boulevard to enhance the community including but not limited to: continuous sidewalks, cycling facilities, and preserving heritage features.

**The Process**

This study is being conducted in accordance with the planning and design process for Schedule 'C' projects, as outlined in the Municipal Class Environmental Assessment process.

The process includes public and agency consultation, an evaluation of alternative solutions and design concepts, an assessment of the effects of the proposed improvements, and development of measures to reduce potential impacts.

Input from the public is important so local community knowledge, comments, and concerns can be incorporated into the final recommended design solutions. As the study progresses, upcoming engagement details will be promoted via newspaper and at [markham.ca](http://markham.ca).
