

Notice of Study Commencement

Municipal Class Environmental Assessment Study Highway 404 North Collector Roads

The Markham Highway 404 North Planning District Secondary Plan (OPA 149) requires the completion of a Class Environmental Assessment Study (Class EA) to confirm the final alignment of the new north-south and east-west roads as per the approved OPA 149 Secondary Plan and consequently to confirm the pattern of other roads within this District. The Highway 404 North Planning District area extends from approximately 400 metres north of 19th Avenue and south to approximately 600 metres north of Elgin Mills Road. Highway 404 defines the western limit while the eastern limit is primarily defined by Woodbine Avenue, and is shown on the Key Plan.

The Study Process

The project is being planned under **Schedule C** of the Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015) process. This notice signals the commencement of the Class EA. The study will define the problem, identify alternative solutions, analyze, and evaluate each alternative based on the potential impacts to the natural, social and economic environments. In consultation with the public and external agencies, a preferred road network will be determined.

Key Plan

A key component of this study is public and agency consultation. Two Public Information Centres (PIC) will be held to present the study progress and obtain public input on alternative solutions and designs, evaluation criteria, environmental impacts and mitigation measures. Public Information Centre details will be advertised closer to the consultation dates under a separate notice.

If you have any questions regarding the study, or would like to be included on the project mailing list please contact one of the Project Team members below:

Dear Mr. Richard Humpage

**RE: Highway 404 North Collector Roads
Municipal Class Environmental Assessment Study
Notice of Study Commencement**

The City of Markham has initiated a Schedule 'C' Municipal Class Environmental Assessment to confirm the final alignment of the new north-south and east-west roads in the Markham Highway 404 North Planning District as per the approved OPA 149 Secondary Plan and consequently to confirm the pattern of other roads within this District. The purpose of this letter is to inform your agency of the study and to invite your input. A copy of the Notice of Commencement is attached.

The study is being conducted in compliance with Schedule 'C' of the Municipal Class EA, which is approved under the Ontario Environmental Assessment Act. The study will define the problem, identify alternative solutions, analyze and evaluate each alternative based on the potential impacts to the natural, social and economic environments. In consultation with the public and external agencies, a preferred road network will be determined.

Public consultation is an integral component of the Municipal Class EA process and opportunities to comment are welcomed throughout the entire study. Consultation activities will be announced at key milestones in the project.

For your convenience, we have provided a Study Reply Form. Please complete this form and return it to Martin Scott at CIMA+. If you wish to provide any comments on this study, we request that your comments be directed to one of the Project Managers on the attached Notice of Study Commencement.
